Hi! So we were wondering what chaos rising stuff you have 😂

Hah! Yeah I have 3 ETBs and I think 3 booster bundles

What are you looking for for them?

Yeah that's what I have

75 on the ETBs and 45 on the bundles

So that'd be \$360 for the lot

Ok. I think I'll pass for right now. But thanks!

What were you thinking?

I was just looking at eBay prices and most were around \$80 plus shipping

Or a combo for \$130

I honestly don't know. I just got a killer deal off eBay and I feel bad discounting you that much. A guy gave me 4 boosters for \$125. I don't think they made much off me. You've already been really great to work with I don't really want to ask too low from you. 😊

Okay yeah that's probably too low for me right now but if you change your mind just let me know. That's

but if you change your mind just let me know! That's basically what I gave you the perfect order bundles for yesterday

Appreciate it though

I totally understand. It was an amazing deal I got, so I totally get it. But thanks for all the info!

Would you do \$300 for the 3 ETBs the bundles and the white flair and black bolt booster ?

the white and black set is 1000.

I did \$63 for each etb and then \$42 for each chaos and then \$70 and \$65 for the white and black

Oh wait. Haha. Something's not right with my math hold on

Would you do \$425 for it all?

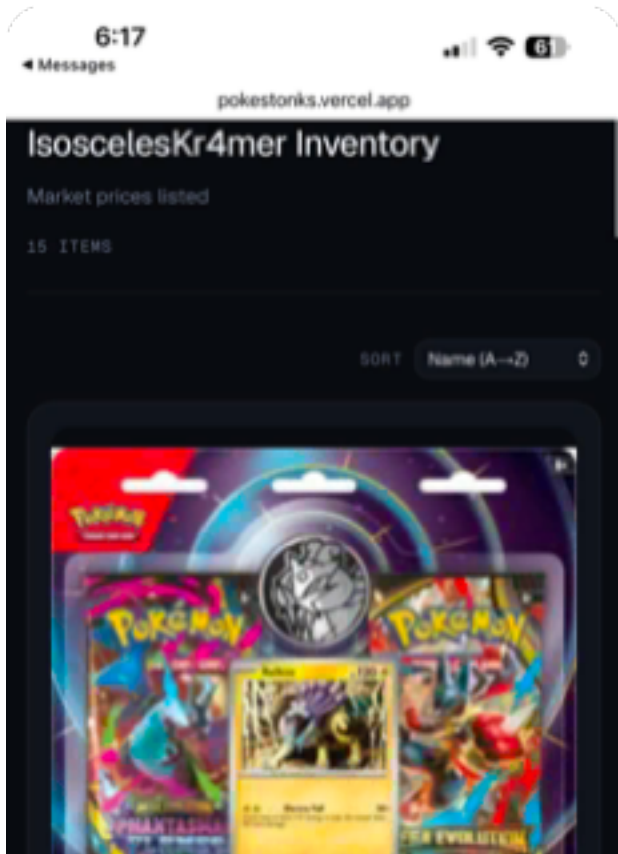

Hang on let me do some math I'll get back to you

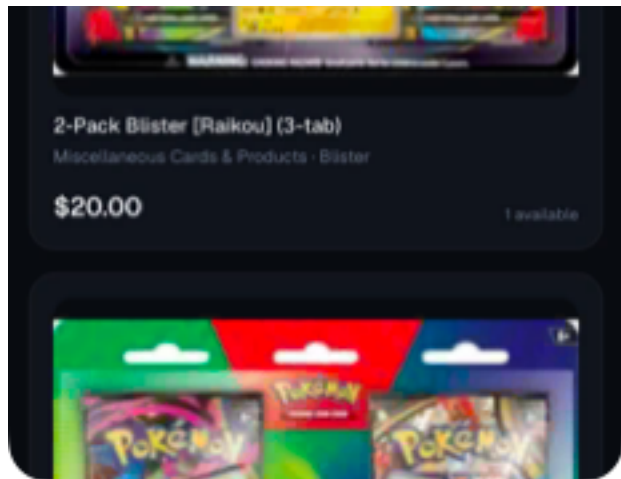

I'm at 470 with the following:

CR ETBs @70
CR bundles @40
WF bundle @65
